Definition and Origins

The phrase "think like a" is often used as a prompt to encourage adopting the mindset, habits, or perspectives of a particular role, profession, or archetype. For example, "think like a detective" or

"think like an entrepreneur." This framing is rooted in cognitive psychology and design thinking, emphasizing empathy and perspective-taking as tools for innovation.

Historically, the idea draws from the notion that understanding the thought processes of others can lead to better communication, problem-solving, and decision-making.
