Understanding AQA IGCSE Grade Boundaries

What Are Grade Boundaries?

Grade boundaries are the minimum marks a student must achieve to be awarded a specific grade in an examination. They serve as a threshold, distinguishing between different levels of performance, such as A, A, B, C, D, and E, with U (ungraded) indicating a fail.

The boundaries are set after the exams are marked and are based on statistical analysis of student performance, the difficulty of the exam, and the overall quality of student work.

How Are Grade Boundaries Determined?

AQA and other examining boards employ a combination of methods to establish grade boundaries, including:

- Standard-setting panels: Subject experts review exam papers and performance data.
- Statistical analysis: Analyzing the distribution of scores to set fair cut-offs.
- Historical data: Comparing with previous years to ensure consistency.
- Exam difficulty: Adjusting boundaries if the exam was notably harder or easier than previous sessions.

The goal is to maintain fairness and comparability across exam sessions, ensuring students are graded equitably regardless of variations in exam difficulty.
